

# HARC & FWRA Picnic

Humboldt Amateur Radio  
Far West Repeater Assoc.

# Fireman's Park in Scotia

- It was a fabulous day and 60+ people attended the FWRA picnic held yearly on the 1<sup>st</sup> Sunday following Labor Day. WARS was represented with 6 HAMS as
- well as those that came from as far as Weaverville, McKinleyville, and all over the immediate area. Equipment was sold, traded and even given away to anyone interested.
- Lunch was a bounty, and the choices of food plentiful. The home made pie! for desert were a big hit, no one left hungry!
- After visiting, enjoying a beautiful grove of redwoods, being fed, and getting equipment, it was decided that WARS would promote this annual event and come back again next year for a totally enjoyable day.

Don ND6T educating Don KJ6ZVR about radio equipment up for sale.

Set up begins with one table then two and more as people begin to arrive.

The fire was started and  
a tri-tip put on for lunch

Food began to be set out as all enjoyed a beautiful sunny day

More HAMs and more equipment  
put out for all to peruse.

A good variety of just about anything wanted was out to chose from.

Prices were negotiated and friendships renewed.

Lots of items traded hands, and everyone was busy looking for “the find” of the day!

Folks setting up their picnics, scattered around the park as food was served.

The event ended with the raffle, lucky HAMs went home with prizes.
